MATERIALS

FABRIC

We pride ourselves in finding durable fabrics of superior quality that fit our customers' changing needs and tastes.

LEATHER LOOK

A synthetic material that is made to look and feel like real leather. It is cheaper than genuine leather, and it does not require the same level of care.

GENUINE LEATHER

Our high-quality leather has a soft, flexible, and smooth texture. Leather is great, whether you are looking for durability, luxury, or environmental friendliness.
